Re: KRYSTEXXA
Docket No. FDA-2011-E-0168

The Honorable David J. Kappos
• Under Secretary of Commerce for Intellectual Property
Director of the United States Patent and Trademark Office
Mail Stop Hatch-Waxman PTE
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Director Kappos:

This is in regard to the application for patent term extension for U.S. Patent No. 6,783,965 filed by Mountain View Pharmaceuticals, Inc., and Duke University, under 35 U.S.C. § 156. The human biological product claimed by the patent is KRYSTEXXA (pegloticase), which was assigned biologics license application (BLA) No. 125293.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product, as defined under 35 U.S.C. § 156(f)(1).

The BLA was approved on September 14, 2010, which makes the submission of the patent term extension application on November 10, 2010, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the *Federal Register*, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely yours,

A handwritten signature in black ink, reading "Jane A. Axelrad", is written over the typed name.

Jane A. Axelrad
